rehabilitation is
just one of the
many services
A.R.S. offers.**

ASSESSMENT REHABILITATION SERVICES

Fair health, disability solutions

Assessment Rehabilitation Services (A.R.S.) is a nationally established, industry-recognized provider of vocational rehabilitation and occupational medicine solutions in Canada. Based in Ontario, we offer a diverse and esteemed roster of more than 400 health care professionals to serve clients across the country.

With industry-leading standards of medical-legal reporting, we strive to achieve optimal health and disability management outcomes through goal-driven, legally defensible reports that are high in quality, cost-effective and time-targeted.

Since 1999 A.R.S. has grown to be a steady and prominent pillar in the insurance community, with experience in the health, disability and casualty insur-

ance industries, the Workers Safety and Insurance Board (WSIB) and employer market sector.

A.R.S. is proud to provide vocational rehabilitation, occupational medicine, independent medical examinations, disability management services and other diagnostic and assistive products. We work closely with motor vehicle accident and bodily injury insurers, employers and health care professionals to assist claimants in a safe and expedient return and/or recovery to their maximum rehabilitation potential.

Our services include, but are not limited to: independent medical evaluations, paper and file reviews, executive summary preparation, work trials/work hardening programs, on-site clinics,

education programs and seminars, SABS training, employment counselling, bodily injury insurance claims, catastrophic injury management, social work services, future cost-of-care assessment, diagnostic imaging and testing, WSIB claims, casualty insurance, employer sector services, defence medical reports and disability case management.

At A.R.S. we strive to work in partnership with our clients to maintain leadership in the Canadian industry of vocational rehabilitation and occupational medicine and create a higher industry standard of integrity, ingenuity and customer service.
